

TLB DAC Study: Management and Non-
Infrastructure Solutions Pilot
Porterville Community Review Process Meeting

Questionnaire 1: Local Water Needs

What are the major drinking water and wastewater operations and management needs in your community or for the area?

What are some of the solutions that you have implemented or are working on?

Do you think that sharing resources with other water or wastewater systems in the area could benefit your community? If so, what types of resources do you think could be shared?
